B. Services Offered

IAV provides storage and assists with transportation logistics related to precious metals and other physical assets. PPPM, an affiliate of IAV, also assists clients with the purchase and sale of precious metals. Additional information about the services offered by IAV may be found at www.goldsilvertvault.com.

C. Insurance Coverage

To supplement experience, physical security, and internal controls, IAV maintains \$800 million in "all-risk" insurance coverage. The current policy is underwritten through Lloyd's of London and includes coverage for physical loss and/or damage including employee theft and mysterious disappearance. Loss from acts of war, terrorism, cyber-attack, radioactive contamination, and chemical, biological, biochemical and electromagnetic weapons are excluded. IAV also maintains a shipper's policy for items in transit with coverage up to \$150,000 per package with an aggregate of \$500,000 per shipment, and an armored car transit policy for deliveries anywhere in the domestic 48 states up to \$10 million per shipment.

D. Physical Aspects of the Vault and Related Security Precautions

IAV vaults provide UL class 3 protection and GSA rated vault doors, dual control features for staff, and redundant alarm and security devices. They are monitored 24 hours a day, 365 days a year. All employees undergo screening and background checks. Inventory and accounting controls are in place for security and accountability of the assets within the vault, staff, and the going concern of the facility. All accounts are fully segregated and identifiable. IAV staff are required to follow strict controls and procedures regarding client and third party visits, incoming and outgoing deliveries, inventorying of client holdings, and electronic communications. Metal detectors monitor for incoming and outgoing inventory.
